Author(s)	Title	Page no.
Sayekti Wahyuningsih, Rahmawati Rahmawati, Djuminah Djuminah , Sri Murni, et al.,	Chemical Study of Mordanting and Fixation Processes in Indigo, Sappanwood, and Tannin Natural Dyes Using Visual and UV-Vis Spectroscopic Analysis	549-558
Noveriady Noveriady, Devin Tesario Grunadi, Neny Fidayanti	Impact of Crush Zone on PPV in Claystone and Limestone Blasting with a Quantitative Approach	559-567
Darwis Baso	Integration of Renewable Energy in Water Management Systems in Remote Areas: A Systematic Review	568-579
Ninda Qurmaulia Dhani, Michella Beatrix, Mochamad Firmansyah	Risk Barriers and Mitigation Strategies for High-Rise Building Delays in Surabaya Using Fuzzy Logic	580-590
Muhammad Nabil Daris Taufail, Deny Andesta	Analysis of GSI Herbal Medicine Product Sales Strategy Using SWOT Matrix and QSPM Methods	591-599
Zahra Dzaki Roofia Putri, Azel Destyano, Ni Ketut Sari, Nurul Widji Triana, Sintha Soraya Santi	The Effect of Substrate Concentration and Bacterial Loading on Biobutanol Production from Molasses Using Clostridium acetobutylicum	600-609
Andriyana Gustam, Suryansyah Surahman , Nur Hardina, Hamdani Muchtar	Identification of Drought Tolerance in Mutant Maize Genotypes to Ensure Raw Material Stability for the Food Industry	610-618
Endah Theresya, Anggi Hermawan, Andrea Sumarah Asih	Hydrographic Analysis of Oyo Hilir River Flood using SCS-CN Method with HEC-HMS and HEC-RAS 6.6 Integrated Modeling	619-628
Ilpandari Ilpandari, Singgih Hartanto, Junita Eka Susanti, Galih Rio Prayogi, et al.,	Evaluating Connectivity and Effectiveness of the Road Transportation Network in West Bangka Regency	629-642
Ananda Arif Rochman, Nazila Aulya Rahman, Sani Sani, et al.,	Synthesis of Calcium Phosphate from Snail Shell Waste Using the Hydrothermal Method	643-651
Fitri Wibowo, Suheri Suheri, Ferry Faisal, Freska Rolansa	Privacy-Focused AIoT: Implementing an Offline Voice Assistant for Smart Building Management Using Local LLMs	652-665

Aulia Nadia Rachmat, Nurul Ramadhanti, Arief Subekti, Adistia Puji Pramesti	Evaluation of Permit-to-Work System for Confined Spaces Using Value Stream Mapping and Root Cause Analysis	666-674
Novalisae Novalisae, Noveriady Noveriady, I Putu Putrawiyanta, et al.,	Evaluation of the Level of Physical Damage Due to Erosion in Post-Sand Mining Land Using the Universal Soil Loss Equation (USLE) Method	675-684
Catur Singgih, Setya Winarno, Sri Kusumadewi, Albani Musyafa	Identification of Factors Influencing the Seismic Vulnerability Assessment of Non-Engineered Buildings	685-695
Wahyu Ari Pramono, Setya Winarno, Sri Kusumadewi, Fitri Nugraheni	Identification of Influential Attribute for Prioritizing Wall Material Selection in Low-Cost Housing	696-709
Oktaviana Dyah Palupi, Yayak Kartika Sari, Joko Iskandar	Comparison of CNN and SVM Algorithms in Sentiment Analysis of Roblox Game Based on Bug, Loading Asset, and Connection Stability Aspects	710-719
Restu Maulana, Deny Andesta	Quality Control Analysis at a Screen Printing Workshop Using the FMEA and Fuzzy FMEA Methods at UD. MKKG Gresik	720-730
Miskar Maini	Hydraulic Capacity Analysis and Design of Road Culvert Drainage for Spillway Outflow in an Industrial Area in Pekalongan, Central Java, Indonesia	731-744
I Putu Putrawiyanta, Neny Fidayanti, Noveriady Noveriady, Novalisae Novalisae	Analysis of Land Management Achievement Activities in the Reclamation Stage at PT. XYZ	745-752
Nur Khofifah, Ahmad Basshofi Habieb	Seismic Performance Enhancement of a Reinforced Concrete Building Using an RB-HDRC Base Isolation System	753-763
Nanda Yunita Pratiwi, Shintya Hotnauli Turnip, Sani Sani, et al,	Effect of Fermentation Time and Lactobacillus plantarum Inoculum Concentration on Lactic Acid Production from Durian Peel Waste	764-771
Zuhrotul Mujayyanah, Melda Nurmaisari, et al.,	Phytochemical Analysis of Eco-Enzymes Combining Coffee Husks and Cocoa Husks	772-779
Muhammad Miftahul Abid, Eka Rachmadi Endarta Putra, et al.,	A Fuzzy FMEA-Based Approach for Risk Analysis in Car Body Spot Welding Processes	780-791
Muhamad Nanda Utama, Kusri Kusri	Rice Leaf Disease Classification Using Convolutional Neural Networks Enhanced with Convolutional Block Attention Module (CBAM)	792-803
Novfirman, Nursamsi Nursamsi, Muhammad Syahfitri, Novi Yulanda Sari	Implementation of Project-Based Learning Using Generative AI for Designing Environmental Research Posters	804-813
Rizky Adhitya, Nadindra Putri Meylia Saskirana, Sani Sani,	Effect of CaO Ratio in Relation to (NH₄)H₂PO₄ and Temperature on Hydroxyapatite from Shells Using	814-823

Yelvía Sunarti	The Hydrothermal Method	
Harun Indra Kusuma, Yulizan Rizki, Bambang Darmono, Liza Mahera, Dita Aulia, et al.,	Application of Holt's Double Exponential Smoothing for Electrical Energy Demand Forecasting in an Assembly and Welding Manufacturing Facility	824-833
Farid Farid, Dewi Humeira Amriah, Muhammad Fathur Rahman Nur, Nurfitri Nurfitri, Muh. Erdin	Performance Analysis of an IoT-Based Smart Energy Meter for Real-Time Monitoring of Electrical Energy Consumption	834-844
Candra Gudiato, Aditya Pratama, Christian Cahyaningtyas	Forest Fire Detection Based on Digital Imagery Using Convolutional Neural Network (CNN) Model	845-855
Rini Pebri Utari, Wahyu Izza Ramadhan	Regression Analysis of Human Resource Factors on Construction Project Performance in Malang City	856-865
Nanang Yulianto, Totok Chamidy, Mochamad Imamudin, Suhartono, Suhartono, Muhammad Ainul Yaqin	Probabilistic Forecasting of M>5.0 Earthquakes in East Java: A 30-Day LSTM Approach Using Seismic Feature Data	866-876
Makmun ZA, Ronal Yulyanto Suladi, Neng Linda Badratul Laela, Fiqih Hana Saputri, Rudi Setiyanto	Implementation of the GDLC Method in Developing RPG Educational Games to Improve Student Learning Outcomes in the Introduction of the 25 Prophets	877-897
Muhammad Reza Widiyanto, Akhmad Wasiur Rizqi	Analyzing Paint Consumer Satisfaction with SERVQUAL, CSI, and IPA	898-908
Raihan Aprila, Annisa Dede Azahra, Rosalina Rosalina, Regna Tri Jayanti	Design and Development of an Ethanol Dehydrator Prototype Using Zeolite 3Å Molecular Sieves	909-916
